### SUMMARY

Full Stack Developer with 3+ years of experience building enterprise web applications and FinTech solutions using Angular, Vue.js, TypeScript, Python, FastAPI, MongoDB, and SQL. Experienced in developing responsive user interfaces, REST APIs, data-driven applications, database integration, performance optimization, and scalable software architectures. Strong background in Agile development, code reviews, testing, and cross-functional collaboration.

### PROFESSIONAL EXPERIENCE

- Full-Stack Developer | Intellect Design Arena Ltd, ChennaiJun 2023 - Present
- Developed enterprise-scale FinTech applications using Angular, Vue.js, TypeScript, Python, FastAPI, MongoDB, and SQL.
  - Built reusable UI components, RESTful APIs, JWT-based authentication, authorization, and database-driven features for scalable enterprise applications.
  - Implemented ag-Grid-based data-intensive modules, real-time dashboards, role-based access control (RBAC), and responsive user interfaces.
  - Optimized frontend and backend performance through efficient state management, API design, database optimization, and secure application architecture.
  - Collaborated in Agile/Scrum teams to deliver secure, high-quality software solutions while adhering to security and coding best practices.

### PROJECTS

- Magic Submission | IntellectAI
- Developed features for an AI-powered insurance submission platform using Vue.js, TypeScript, ag-Grid, Python, FastAPI, and REST APIs. Built document validation workflows, integrated backend services, and enhanced user productivity through responsive UI development.
- Risk Analyst | IntellectAI
- Led the frontend modernization effort by migrating enterprise risk management modules from Ext JS to Angular 19. Developed reusable Angular components, integrated REST APIs, and optimized application performance for large-scale financial workflows.
- Xponent | IntellectAI
- Developed enterprise web application modules using Angular, TypeScript, and REST APIs. Built reusable UI components, data-driven dashboards, and workflow automation features while optimizing application performance and scalability.

### TECHNICAL SKILLS

- Frontend** : Angular, Vue.js (Vue 2/3), TypeScript, JavaScript, HTML5, CSS3, SCSS
- Backend** : Python, FastAPI
- Database** : MongoDB, SQL
- AI Tools** : ChatGPT, Claude, Amazon Q, Google Gemini
- Tools** : Git, ag-Grid, Vite, Webpack, Jenkins, JIRA
- Others** : REST APIs, Vuex, Pinia, RxJs, Responsive Design, Agile/Scrum, Authentication & Authorization

### EDUCATION

- Bachelor of Information Technology - 8.7 CGPAJun 2019 - May 2023
- Muthyammal Engineering College, Namakkal

### ADDITIONAL INFORMATION

- Languages:** Tamil, English
- Awards/Activities:** Got Spot Award for my outstanding and hardworking performance.
